for dancers & dance educators

In this experiential workshop, a team of master teaching artists—including dancer/choreographers and a musician—will model NDI's unique approach to intertwining process and performance for early elementary children. We will demonstrate the use of vivid storytelling to engage and inspire; introduce inventive choreography that develops musicality and physical mastery; and share movement "games" designed to elicit dynamic, student-generated movement.

Date: 2:00 p.m. to 4:00 p.m. on Thursday, February 21, 2019
