### About Dance Against Cancer

Co-producers and longtime friends Erin Fogarty and Daniel Ulbricht conceived Dance Against Cancer in 2010 to unite the dance community around the fight against cancer. They both have close ties to the cause as Fogarty lost her father in 2011 after a seven-year battle with colon cancer and Ulbricht lost his mother in 2015 after a battle with uterine cancer. With so many of their close friends and family sharing stories of their own relation to the disease, the desire to do something grew into what is now a gala benefit for the work that the American Cancer Society does through research initiatives as well as patient and family service programs. Since its inauguration, Dance Against Cancer has raised more than \$2 million in support of the American Cancer Society. More information can be found at [dacny.org](http://dacny.org).
