The Playground NYC allows dancers to experience various choreographic styles and ideas, engage with a new community of dancers, and gather resourceful information and inspiration from the array of choreographers involved. In turn, established choreographers are paid for their creative investigations, are given free space to explore new movement with professional dancers, and are provided with the opportunity to establish relationships with new dancers and fellow choreographers.

Class description:
Nicole von Arx offers an advance level dynamic contemporary class that incorporates elements of floor work, yoga, improvisation, and her latest choreography research. She encourages you to embrace physical and emotional effort, and explore the extent of your body and mind's capacity. Her warm-up is a series of challenging exercises focusing on isolating, strengthening, aligning and balancing the body. This will lead into improvisation tasks emphasizing sensation, timing and space. The class culminates in a complex phrase work allowing dancers to discover Nicole's movement vocabulary and musicality.
