Lenzu

The LaMaMa Moves! Dance Festival presents the unique Anabella Lenzu as she declares "No More Beautiful Dances," a dance/theater solo in which the spoken word, drawings, photographs, and video projections merge to offer a very personal view of femininity, aging physically and emotionally, and what it means to be a woman, mother, and artist today. The high-tech production is captured not only by the audience, but by two live-streaming cameras, one above the stage and the other below, two laptops and two projectors. Video Projection Design is by Todd Carroll.

Anabella Lenzu
