WHEN : THURSDAYS 6-8 PM - start date 3/12

This lab is geared towards dancers and choreographers of all levels ready to explore guided-improvisation through simple partnering exercises. As we find support from the floor and our connection to space, we'll play with the energetic flow and physics between bodies and gravity in duet form. We'll play with the partnering skills of rolling, releasing weight and breath, falling and catching as well as weight sharing in motion. Class ends by learning combinations from each other and putting them into duets creating mini dances. Though we will lead class with a certain structure and aim in mind, we are open to improvisation, ideas and input from all involved with hopes of achieving a free-flowing, creative class form. Let's see where our bodies and inspirations take us!
