About the Work

Time Capsule: A Physical Documentary is a dance film, directed and choreographed by Valerie Green, in collaboration with cinematographer/editor Alex Lopez, composer Mark Katsaounis, and the dancers of Valerie Green/Dance Entropy. Eight solos physically trace emotional experiences of the COVID-19 pandemic, woven together with a score of vocal reflections and incidental sound from the diverse sampling of New York City landscapes in which each dancer was filmed. A dynamic interplay of beauty, strength, and resilience, "Time Capsule" is a testament to the faith we have in our City, its vast infrastructure, the delicate spirits that inhabit it, and the tender terrains we all hold within.
