Avery Berlowski

Following the success of last year's UNEARTHED, PANGEA: UNVEILED is a collaborative performance that offers the company's artists the chance to present original works. With choreography spanning multiple genres, as well as the premiere of *Carmilla* - a full-length ballet based on the classic vampire novella - it is Pangea Dance Collective's biggest show to date. Don't miss the unveiling of a new era in concert dance and join us at Peridance's KnJ Theater on November 1st!
