Join us for Proteo's Inaugural Season, featuring the premiere of SEPARATE OCEANS, a new evening-length performance work that examines virtual systems of emotion and affect. Making parallels between digital spaces and the rhythms of the natural world, SEPARATE OCEANS incorporates dancing, live video feed, and projections that all draw inspiration from the ways humans increasingly depend on digital systems for desire and fulfillment. SEPARATE OCEANS features collaborators/performers Bree Breeden, Jennifer Campbell, Maddie Schimmel, and Lauren Vermilion.
