Skinner Releasing Technique™

with Karl Anderson

February 3 – April 27

WED 6-9pm

Randy Warshaw Studio

This imagery-based Somatic experience facilitates ease and healing. We delve deep inside and shed notions of style and aesthetics. Students enter "feeling states" and explore the limitlessness of their multi-dimensional aliveness. SRT makes for clear, concise, and subtle movers and nurtures an evolved sense of empathy and compassion.

Karl Anderson has been making stuff in NYC for over 25 years (slamfest.org). He has degrees in dance (CalArts) and architecture (Pratt). Drawing from myriad interests and desires, his performances range from raw and jarring to subtle and beautiful. Sincere exploration is the core of his creative expressions.

Movement Research
115 Wooster St
New York, NY, 10012
\$14

Schedule
February 2, 2016: 8:00pm
