Inside the Tao, the absolute principle underlying the universe, combining within itself the principles of yin and yang. Here we are met with the basis of human activity: greed, ego, partnership and community. As we walk this strange path and are thrown down whatever road the Tao directs us, we find that cooperation with ourselves and others is the only way forward or find balance. The Tao, dictates the way or code of behavior that we must operate with in in order to find harmony or natural balance .

Watch as four characters struggle to decipher what is real and what is simply a warped perception of reality. Our own experiences can make it so hard to let go; but the Tao forces us to make connections. If we work together, the unpredictable and unattainable somehow begins to become possible.
