Location: New York, NY

Eugene Notten

The class provides exercises for finding your center, improving stability while increasing range of motion, and organizing the body for fluid execution while working on tango moves. It offers tools to continue to practice alone the skills needed to calibrate your motion so you can be atuned to your partner when the opportunity comes. The class will end with a choreographed sequence that challenges your acquired skills and lets the dance take over. Practice videos are provided regularly.

\$15 per class or \$48 per month
