The Snowman is a whimsical winter story ballet that follows a young boy, James, on an incredible adventure with his new friend, the Snowman. James and the Snowman encounter fantastical woodland creatures, dancing penguins, and friendly snow people throughout their magical journey together. In addition to the professional company members playing various entertaining characters throughout, the School of Dancing Wheels' Performance Ensemble joins the company on stage to dance, share sign language salutations, and celebrate friendship.

We hope that you join us for this wonderful family favorite performance by the Dancing Wheels Company & School. Whether you choose in-theatre or at home for our live-streamed performance, we are certain that *The Snowman* will bring a smile to the face of every member of your family this holiday season!

The Dancing Wheels Company & School is America's first and foremost physically integrated dance company for people with and without disabilities. We are truly a celebration of the spirit of dance!
