Thrid Rail

Scattered with kitsch and classic notions of love, TRUE LOVE FOREVER is where the broken-hearted find comfort and camaraderie, exploring the risky nature of love that attracts us like moths to a flame, from euphoric beginnings to heartbreaking ends. After the show's emotional ride, will you step off with an open heart, holding your lover closer or ready to meet someone new?

TRUE LOVE FOREVER is created by immersive theater director Jennine Willett of Bessie Award winning Third Rail Projects and multi-platinum-selling composer, singer, and songwriter Coyle Girelli and developed in collaboration with Devika Chandnani, Julia Kelly, Noah LaPook, Justin Lynch, Mary Madsen, Marissa Nielsen-Pincus, Jenna Purcell, Edward Rice, Konata Stallings, and Ryan Wuestewald.
