Peter Yesley

Senior HLD members Meredith Fages, Jillian Hollis, and Jerron Herman express literal and figurative acts of repetition through an immersive sequence of ritualized patterns related to the many connotations of completion, including Latsky's current interest in death and dying. Whether spanning a linear path or rhythmically pounding on a spot, each section explores different movement styles while integrating the individual characteristics of the dancers. Featuring a special prologue for Latsky and Tiffany Geigel.

Come experience the room.

Unfinished will feature HLD's accessible app with professional audio description and captioning for disabled audiences + extras!
