The [Dance/NYC Junior Committee](#), together with the [Bloustein Center for Survey Research \(BCSR\)](#) at Rutgers University's Edward J. Bloustein School of Planning and Public Policy and under the advisement of Dance/NYC and [Dance/USA](#), is conducting a Dance Workforce Census to document how a critical workforce in the dance field in NYC is surviving.

The aim is to count every individual 21-35 years of age who works in any capacity to support professional dance in New York City, including but not limited to:

- agents
- choreographers/creative artists
- consultants
- critics
- designers
- educators
- managers and all administrators
- performing artists
- production staff
- publicists
- technicians

The Committee's intention is to generate conversation among the communities and individuals that participate and to publish results that will serve as a tool for informed decision-making, on the part of peers, colleagues and employers, and all advocates for dance.
