About the Presentation

Since our founding in 2007, Dance/NYC's Junior Committee has served as a liaison for New York's emerging dance professionals. The original committee meet quarterly and functioned strictly as an advisory committee for Dance/NYC. Now in our fifth year, the committee meets monthly, has an elected board, and actively engage with our community through independent projects. We have continued to evolve over the past five years and have established a model that allows us to efficiently strengthen, unite and re-energize our peer group in a challenging field.

This presentation will share our blueprint for the Junior Committee and what we have learned along the way. Our programming, including our town halls and the "21-35 Workforce Census," allows us to foster professional development in our constituency and provide a forum for dialogue among diverse perspectives in our field. We invite emerging leaders across the country to join us in strengthening and uniting the dance community by forming committees in their area.

About the Conference

In marking 30 years of serving the dance field, Dance/USA will host its 4th annual conference in San Francisco from June 27-30, 2012. Join more than 450 dance professionals for this exciting event that represents the broadest gathering of dance professionals in the US, including executive directors, artistic directors, company managers, choreographers, artists, presenters, agents, and others.

Over four days, participants will engage in invaluable professional and networking opportunities. Sessions will provide experiential hands-on learning paired with examples of successful new models that reflect the field's entrepreneurial spirit and will inspire new thinking for a vibrant future for dance.
