Dance/NYC Announces 20 Recipients of New York City Dance Rehearsal Space Subsidy Program

New York, NY (For Immediate Release) - The service organization Dance/NYC is pleased to announce the 20 recipients of the second iteration of the [New York City Dance Rehearsal Space Subsidy Program](#) (RSS), made possible by the generous support of the Mellon Foundation. The purpose of the program is to make affordable rehearsal space available to dance makers who are in critical need of space for the creation and development of their work, while also fostering a more inclusive and just dance field. By addressing financial barriers to accessing artistic development space, this program aims to advance dance artistry in the five boroughs of New York City and contribute to the field's overall diversity, sustainability, resilience, and health. While dance rehearsal space facilities are the direct recipients of funding, individual dance artists and dance making organizations are the primary intended beneficiaries of the program. Through the program, dance artists and small budget dance making organizations/groups will have access to affordable, accessible rehearsal spaces in all five boroughs of New York City at rates ranging from \$5-\$10 per hour.

This iteration of the RSS Program, its components, and continued evolution is a reflection of ongoing learning and dialogue with previous RSS grantees, artists who utilized subsidized space offered through the program, field partners, Dance/NYC's task forces and committees, and Dance/NYC's ongoing research; research related to the broad landscape of dance rehearsal space and expertise in the development and operation of cultural space; and the current events impacting the field.

Each grantee will receive grant funds to provide subsidized dance rehearsal space throughout the course of the grant period (May 1, 2022–December 31, 2024); fees to support administrative costs to run the program; in-kind marketing, communications, and outreach annually through Dance/NYC platforms; and professional development support in the form of grantee cohort meetings and annual site visits to drive individual and collective learning about artists' needs and the landscape of dance rehearsal space in NYC.

Dance/NYC's New York City Rehearsal Space Subsidy Program has provided \$1,760,500 between 2019–2021 to 16 grantees to collectively provide subsidized rates for over 65,000 hours of dance rehearsal space across the five boroughs of New York City. As Dance/NYC moves into the second iteration of the program, it will distribute over \$2 million over the course of the grant period (2022–2024) to 20 rehearsal spaces to provide subsidized rates for dance rehearsal space.

Throughout the three phases of the application process Dance/NYC remained committed to several key program goals. One such goal was to prioritize and center the experiences and input of individual dance artists at every level of decision making, beyond ensuring that artists and organizations have easy access to affordable and accessible rehearsal spaces.

In the first phase of the process, artists were invited to nominate spaces they already know, and those venues were invited for participation in the Expression of Interest phase. A review panel of individual dance artists and workers across the sector evaluated the expressions of interest and determined which applicants advanced to the full application phase which was again evaluated by a panel of artists.

Another key goal was to create the greatest material benefit and tend to the impact of participation in the program. Venues which participated in the full application process received an application honorarium of \$2,500 to offset the costs of completing an application, and substantive technical assistance options were provided to all applicants, inclusive of on-site visits and one-on-one sessions with the program consultant for support in completing key components of the application. Finally, the review panelists, together with Dance/NYC, identified a final grantee pool that collectively increases equity in the distribution of subsidized hours in terms of geography, dance genres, budget sizes, and the demographics of the artists served.

"Across our grantmaking programs, Dance/NYC seeks to identify and provide resources that collectively support dance makers and their ability to thrive," said Alejandra Duque Cifuentes, Executive Director, Dance/NYC. "We recognize that affordable, accessible rehearsal space is an essential resource for the creation and development of dance works, and, through this Program, we seek to ensure that dance artists and organizations across genres, budget sizes, and demographics have equitable access to this foundational resource."
