Sept. Auditions, summer rehearsals for 2015-16 Season

Kelley Donovan & Dancers has a very collaborative process. Our movement vocabulary involves a very sequential use of the torso with abrupt energy changes, isolation and weight shifts. This would be a very collaboratively created work. I'll give dancers a vocabulary I've been developing in the first rehearsal and we will build the piece together from there. Most of our work has been related to the theme of transformation, impermanence and letting go.
