Application Deadline: July 5, 2010

The I-Park Foundation, a not-for-profit international arts community sited within an expansive nature preserve in East Haddam, Connecticut (USA), is seeking creative proposals in the following disciplines:

Music Composition/Sound Sculpture Visual Arts/Environmental Sculpture Theater/Choreography/Performance Art Landscape/Garden Design Architecture Landscape Architecture

Thanatopolis, an alternative memorial park/space in the advanced conceptual phase of its development, is looking for works that harmonize with the long-term goal of the project, which is to re-imagine our cultural and personal relationship to death, memory and memorialization - and to engage the above creative fields to bring about a new, profoundly sacred and evocative landscape/sound-space.

Selected projects will be presented at the Thanatopolis Exhibition on October 2, 2010.

Judging will be by a distinguished panel on the basis of creativity, site-responsive, cultural relevance, feasibility and, perhaps most importantly, efficacy in engaging the issues of death, memory and memorialization.

Those invited to execute their physical, performance or music/sound sculpture pieces for the Thanatopolis Exhibition will receive a creative fee of \$2,000 plus a budget for travel, materials and incidental expenses. Applicants invited to exhibit 'paper' (un-executable, future, conceptual) projects will receive a creative fee of \$700. Additional funding may be available depending on the scope of the individual projects.

See links below for details on the submission process and elaboration on the inter-disciplinary and collaborative nature of the Thanatopolis Project.
