New choreographer to NYC Looking for 4 male and 4 females contemporary/modern dancers for up and coming platform performances.

This is my first choreographic project since graduating and i am looking for dancers who are patient and willing to take risks. My choreographic style consists of floor work, improvisation and partnering/contact work, so i need dancers who have experience and if not willing to learn.

I like to have my dancers contribute and help with the process of creating this exciting new piece.

If you are interested please send you resume, head shot and any video footage links to - sj.parties@hotmail.co.uk - and audition information will be emailed

rehearsals and performances will be unpaid.

rehearsal will start mid November - destinations will be confirmed nearer the time.
