Looking for very openminded, unique, uninhibited dancers to come upstate and be part of an ambitious music video project. Video is for a really great artist with a large fanbase, so exposure is guaranteed. There will be furniture levitating in the trees, beautiful costumes, and a talented crew of artists, designers, and film crew.

Technical training is not necessary...Dance moves will be erratic, frenetic, and totally insane.

We will be shooting May 23-24 in the Catskills. Please make sure you are free those dates. No pay, but no one is getting paid. And we will feed you

Please send headshots and video material if you have it.
