Audition: Sunday, June 17th 4-6pm for BOTH tracks!

Visit this site to pre-register: <http://www.peridance.com/CertificateProgramForm.cfm>

The Certificate Program's objective is to provide a deep understanding of proper technique and performance expression, to foster extensive knowledge of the chosen dance track, and to develop professional attitude. Performance skills are honed through workshops and performances. This program is open to both Domestic and International students.

The Program offers two tracks: Ballet/Contemporary and Commercial. The individually-tailored curriculum offers a minimum of three classes a day, five days a week, in each concentration, with an emphasis on personal attention and mentoring in order to nurture each student's full potential as a performer and individual. Technique classes are drawn from course offerings designed especially for the Certificate Program to provide a specialized experience for the pre-professional student and also from Peridance open class offerings, which allow the dancers to train alongside NYC and international professional dancers in a dynamic environment.
