Choreography Intensive Full Schedule: <http://www.charlottenewmusic.org/dance/schedule/>

Creating new dance pieces will become a collaborative effort between the choreographers and dancers.

The Dance & Music Co-Lab is a two-week choreography intensive consisting of classes, lessons, workshops, showings, and multiple performance opportunities to dancers and choreographers from the local community and beyond. Under the guidance of professionals in the field, choreographers and dancers will work together while collaborating with music composers. Their collaborations will be premiered in concert as a series of original seamless dance and music pieces, performed by dancers and professional musicians.
