Dancers must have at least four years professional performing experience and be highly proficient in modern and ballet techniques with a willingness to experiment with other movement styles. Awareness of unique musical phrasing and the ability to adapt to that phrasing is necessary. Please email resume, photo, video, YouTube links, website, etc., of your most current performance, (if you have one). Once we receive your materials, we will then invite you to attend one of our rehearsals. All dancers must be available to rehearse on both Saturday and Sunday starting in September through October 15th, 2013. Project date and film shoot will be in October.
