I'm a young french artist looking for three women (around 20/24 years old) for two videos (each 5 minutes).

The shooting will take 2 days whenever we can schedule it in march.

And few more hours this month needed to build a mask that suit you and a costume research.

There is nothing complicated about the filmed performance I'm looking for people that can handle some body direction

It s an unpaid experience but colourful and poetic !

Please send me your C.V and photographs if interested
Don't hesitate to contact me for further information

Looking forward to meet you,

Thank for your consideration
