DANCE LONGER DANCE STRONGER

I am a UK based dancer and dance science student and I have recently set up a new website www.dancelongerdancestronger.com to promote the sharing of knowledge on dancers' health between dancers (student and professional) and health practitioners. I strongly believe that through the sharing of knowledge and experience we can all be healthier dancers and perform to our optimum potential.

The website consists of articles written by dancers about injuries they have sustained, about supplementary training that benefits their dance practice and also articles from health practitioners with training or experience working specifically with dancers about how their practice can benefit dancers. I truly want this website to be global and would welcome any articles from dancers, physiotherapists, nutritionists, dance teachers etc who feel their knowledge/experience would help others in the field of dance.

Thank you

Claire Farmer - Founder of Dance Longer Dance Stronger (official launch April 6)
