Audition for New Contemporary Company

Compensation: Low, but discussed once hired

KS Photography

You would be joining a brand new company from the ground up. As being one of the first company members you would receive free headshots and dance shots. As well as group classes together with members of the company to get to know each other on a better level before we start putting a piece together. Once we have a piece I will send the finished product into showcases in New York to perform them around the city. It won't be very time consuming, but you are expected to be at every show.

The first part of the audition is a video audition. Send a minute video of yourself improving to kendraswartz@yahoo.com by April 28th. Please include name, age, and dance training.

The second part of the audition would be a class in NYC with an audition fee of \$20.00.

Excited to see all the talent you have to bring to the team!

Thank you!
