Casting for a final project for a graduate class at Union Theological Seminary. I am looking to video record various dancers. The purpose of this project is to explore how The Divine shows up in movement in non-traditional worship/praise dances and outside of churches. Please note this project is unpaid but you will receive credit and a copy of the final project. If the project gets picked up for viewing you will be notified of the screening date.

SUBMISSION:

Submit a headshot and a recent video of you dancing the genre specified. If you don't have a video reel, send any YouTube links of you performing. If selected, prepare one minute of choreography that we can video record. You can dance to your own music and just be yourself. Prepare to answer the following question, you will be videotaped: When you dance, do you feel a connection with The Divine? If so, how?
