Rehearsal in July 2018 in NYC

First performance on July 21, 2018 at House of Yes in Brooklyn.

ABOUT THE SHOW:

AcousticaElectronica is a 360 degree sensory adventure through art's past and present. This immersive show is a mashup of opposites: the classical and the electronic, the light and the dark, a trip to the theatre and a night on the dance floor. Energize in the heart-pounding music, lose yourself with interactive elixirs, and flow into the mind-bending journey that is the story of AE.

Dorian Gray invites you to view his collection: Carmen, the Conductor, Odette the Swan, and even Pierrot the Clown. Here you'll find resurrected ghosts of art's past, pulled into the present. Will they stay as they were and fight to stay relevant? Or will they break through...? Dig as deep as you dare in this blend of dance, circus, aeriels, opera, acoustic and electronic music.
