EMOTIONALIZE!

FANHAN TECHNOLOGIES Co. Ltd is casting native English speakers to participate in an innovative research.

This project is serving two purposes:

The participants will take part in FANHAN TECHNOLOGIES' research of Creating an innovative software, which will be able to identify people's faces and recognize their mood and emotions.

Creating an INTERNATIONAL TALENT DATABASE for feature films and TV projects.

(this database will be used by casting directors worldwide)

Link to FANHAN TECHNOLOGIES website:

<https://www.fanhantech.com/en>

At the audition you will be required to pick a subject, such as Relationships, Childhood, Family issues, or any other subject of your choice and speak freely on camera for a few minutes. During your speech we will ask you to show a range of different emotions. No need to memorize any prepared script or lines. Your speech has to be natural. The videos collected will be for internal use only.

A participation stipend of \$10 will be paid to each talent.

DATES: July 3rd, July 22nd through 30th

LOCATION: Shetler Studios

244 West 54th Street,

12th Floor

New York, NY 10019
