Here are some words from from those who I have had the pleasure of working on:

"Getting Reiki done by Roza was a rejuvenating experience. She knew exactly what my body and mind needed and pulled the tension out of the specific areas that needed release the most. I highly recommend doing Reiki with this artist."
-Robbie, (Dancer)

"Before I get reiki I was just oh... pain pain... I can't relax...my boby were tough...
When you touched my body I could breath easily and talk to my pain. I felt my muscle still conect. So my mind changed not thinking pain ..
like... how I can use other part of boby then how support... something like that...!
Really thinking openand my pain was split!!
thank you for your warm power!!!"
-Misuzu (Dancer)

"I feel my full worth after my reiki sessions with Roza"
-Rebecca (Dancer, HIIT and Gyrotonics Instructor)

"Roza is highly skilled in body work and alignment. She is intuitive and anatomical in her approach. She describes her methodology as she's working on me, so that as a layman, I'm not left in the dark and continue to feel included in the process. She offers adjustments and alterations so that the work on your body doesn't simply end after the session. She empowers the people that she works with to have ownership and autonomy over whatever it is they're working though, and by identifying and engaging with strengths, she illuminates and rehabilitates weakness."

-Morgan (Dancer, Yoga Instructor, Educator)
