Green Space is proud to announce a new offering as a part of our Fertile Ground New Works Series, Fertile Ground: Digging in Group. D.I.G. will provide 7 choreographers an excellent opportunity to develop and share new work together during 8 sessions, ending in a culminating Fertile Ground performance, on January 22, 2023, exclusive to their cohort.

\*Green Space provides an inclusive environment; this opportunity is open to new/emerging or established choreographers, and all dance genres, ALL are encouraged to participate.\*

Each 2-hour session will be moderated by a rotating member of the Green Space Advisory Board, and Artistic Director Valerie Green. During these tri-weekly sessions choreographers will present their work at various stages to their cohort, followed by a moderated peer discussion, enabling choreographers to receive informative feedback in a supportive environment. D.I.G. is about building relationships with fellow artists and creating the opportunity to network with fellow NYC choreographers/dancers, all while creating new opportunities to grow within one's own choreographic process.

The culminating performance for Fertile Ground: Digging In Group will be produced with full production values including publicity, online visibility, programs, lighting, sound system, box office, house management, and discussion after. The evening will consist of work that the cohort has been developing over the 8 sessions, followed by final discussion moderated by Artistic Director Valerie Green - over wine - that integrates the choreographers, dancers, and audience members. Participation by choreographer is required.

Deadline: Ongoing, non-curated, first-come, first-served until the cohort is full. The call will close when all spots are taken.

Tri-weekly sessions will be on a rotating basis.
