Call for NYC-Based Dance Companies | UK Touring Opportunities | 2026/2027

Finleigh Zack Dance (FZD) is currently seeking one to two New York City-based dance companies interested in touring work in the UK in 2026 or 2027, with a focus on bringing a full evening-length performance to London audiences.

Now based in the UK, we are expanding our producing and production support to a small number of US-based artists who are interested in bringing their work across the pond. Having worked professionally within both the US and UK dance sectors, we can offer an understanding of how to navigate the London performance landscape from venues and marketing to press and backend logistics.

What we can offer:

- Producing and project planning support
- UK venue research and liaison
- Marketing, press, and audience development support
- Backend production coordination (contracts, scheduling, logistics)
- A flexible and tailored to your company's scale and needs

Please note that FZD is not able to offer financial support for touring costs. However, if your company has existing funds or is planning to apply for grants to support international touring, we are able to step in as a producer and strategic partner to help realise the project and allow you to stay focused on the creative work.

We are happy to work with budgets of varying sizes and have relationships with venues at different scales and cost levels to best support your project.

If this sounds like your company (or if you know a group we should connect with) would love to hear from you.

Let's schedule a call to discuss your work, touring goals, and how we might collaborate.

To express interest, please reach out at Finleigh with a short description of your work and the piece you are hoping to tour.
