The space is a cross-scene, interdisciplinary home for quality experimental live and visual works. We support and present dance / experimental performance / music / visual art / fashion and film.

We are seeking Studio and Rehearsal Space members to be part of the SUPR OMEN community, with regular opportunities to propose ideas for the community and for programming in the performance space.

We will have two live event programs:

1. Experimental live arts (second Thursday of each month)
2. Emerging dance (fourth Thursday of each month)

Information about how to submit proposals for these programs will be available in early 2026. Applications will be received on a rolling basis.
