Calling all young professional dancers! Do you want to combine your technical dance training with a creative environment that will allow you to merge your art with your activism? Join us at nathantrice/RITUALS dance theater for the 2017 Summer Intensive Project: June 19th - July 7th, M-F 10AM - 3PM.

The intensive is a 3-week project that takes place at the Restoration Center for Arts and Culture in BedStuy. Students have daily instruction in yoga and contemporary classes, as well as weekly nutritional guidance seminars. The great thing about our intensive is that it is not just technique class - students will work alongside Artistic Director/Founder Nathan Trice to create a new piece that is based on their application essays and group discussions held throughout the intensive. The final work will be presented at the end of the three weeks.

The fee for the three-week intensive is \$700. Work-study scholarships are available. To request an application or for more information, email: sip.nathantricerituals@gmail.com
