Administrators and participants from various arts and educational disciplines are invited and encouraged to attend the workshops.

Continuing Professional Development Course (CPD)

Course Description: This Dance Composition and Design course is an examination of the choreographic tools and processes through the development of improvisational techniques, compositional basics, the elements of compositional design, and the critical response process as well as the creation of new choreography. This course supports the mentoring of student compositions and refinement of best practices for compositional development at all instructional levels.

Attendance to at least 15 hours of the DETI and submission of a lesson plan that demonstrates the use of dance composition and design is required. Participants respond to written reflection evaluations at the conclusion of the DETI. To receive MSDE credit for attending DETI participants must register using the BCPS on-line registration system. Non-BCPS employees will register as a guest. The course is listed in the catalog called "PDC Inservice Catalog - CPD Courses Catalog."
