We assume you know that in Milongas we actually dance to 3 different musics: Tango, Milonga and Vals. And no - Milonga is not a faster and happier Tango. It definitely is faster, and definitely happier, but has its own steps, its own musicality and its own rules.

You have two choices - you can start to learn all 3 types of Tango at the same time. It will be difficult, but rewarding. Or: You can start with Tango and only after you advance you start learning Milonga.

This class is meant for Tangueros who already dance Milonga, are able to clearly define musical accents but wish to expand the Milonga vocabulary by working on complex patterns and musicality.
