John Suhar

Date: Apr 28 & May 4, 2019

Time: 1-6 pm

Pricing: \$185 until Apr 21 | \$200 after

Instructors: Randi Sloan, MA, Robert Meredith, MFA, Barry Blumenfeld, MA and Hilary Berliner, MA

In this workshop, participants experience the intersection of architecture and dance education as well as of mathematics and dance education.

Through movement activities and creating lessons, participants will leave with the tools to bring these content areas together. We will explore the process of viewing dance through architectural and mathematical lenses, and vice versa. Developmentally appropriate activities for different grade levels will be shared and discussed.
