Find your inner-strength. Use your body and your energy in a healthy way as an instrument of your expression whether you are ballet, modern, contemporary, hip hop dancer, or an actor. Develop & Improve alignment and technique.

Acquire muscular awareness in order to prevent injuries.

The focus of this workshop is to further develop and deepen one's understanding of the principles of the skills basic to all movement studies; such as dynamic alignment through coordination and integration of the neuro/skeletal/muscular system, strength, balance, and spatial awareness. To this end, we will explore alignment with an emphasis on anatomical principles and enlist the appropriate neuromuscular effort needed to dance with optimal integration of every aspect of the individual body, mind, and spirit.

*To explore the use of space, dynamic, coordination, and body control of energy.

*To compare how exercises & alignment of the body affect the upright position and the different effects of gravity on the dancer.

*To know the names of major bones and muscles

*To learn to develop & understand breath control to better understand how it affects movement.
