To warm up before the partner dance, we'll do some Shines! These are solo steps that you can do if you feel that the music is better to dance separately from your partner. You will both show each other cool steps and enjoy the music together, connecting your bodies from a distance.

This will also help you to understand some body movements, and it will allow you to have more body isolation and coordination while you learn how to dance not only with the feet but also with your entire body!

All set, see you there to Shine!

#We strongly advise coming at least 15 minutes early since our classes are big and sometimes there is a line to get into the class
