Location: New York, NY

The young, dynamic and award-winning Dutch choreographer of *Sisters*, who appeared in last year's Battery Dance Festival, Emma Evelein, shares her approach to design of movement connected to a story or a feeling translated by film. Among the several aspects to be addressed: camera, light, color, texture, dancers' skill, and build-up. She will then teach a little phrase from *Sisters* and explore how you might translate it in your own style of movement directing.

Join Emma as she leads a workshop on August 17, 2020 at 10am EDT (\$1.00 registration fee)
