From Japan, butoh artists Kentaro Kujirai and Barabbas Okuyama embody the philosophy of yin and yang in their haunting duet entitled **A HUM SAN SUI**. From Taiwan, mathematician-turned-choreographer Hao Cheng uses the stage as his chalkboard in a solo that explores quantum physics through repetitive circular motion. Lastly, from Korea, duo Choi x Kang Project twitch and jerk like windup toys to the sound of a ticking clock in their comical and technically-daring piece **Complement**.
