Expand your craft, technique and creativity in an exclusive, personalized, tailored program. This is an opportunity for dancers, actors and performers to develop their potential on both movement and theater performance skills and connect both to become more authentic, expressive performers. This Workshop explores the principle: Motion Creates Emotion / Emotion Creates Motion, and emphasizes the use of imagination, interpretation and body coordination and control. Participants will experience and study Anabella Lenzu/DanceDrama repertory. The emphasis is on the journey rather than the destination, on understanding the impulses generated by movements and gestures. The search is for authentic and honest movement.\*\*\*There will be a final showing on the final day of the workshop.
