Dance / Movement Psychotherapy with Infants and Children

Dr. Suzi Tortora

Sensitize yourself to the ways young children learn and express themselves through their movement and senses.

Explore nonverbal cues and movement activities that support early attachment relationships and social, emotional and cognitive development. These activities are used with families or groups and in dyadic and individual therapeutic, hospital, preventative and childcare settings.

This course is fully approved by the ADTA for Alternate Route credit for R-DMT and eligible for CE hours. For further information about the ADTA, visit adta.org.

2 Sessions, 16 hours

Saturday, December 7

Sunday, December 8
