Experience an impactful evening of environmental activism through art!

In recognition of Earth Day 2024's theme "Planet vs. Plastics," Dancer Laura Shapiro debuts "The Cost" a new dance solo highlighting the human rights, environmental and climate harms linked to the petrochemical industry.

Dancer Davalois Fearon performs "Excerpts of Consider Water" – inspired by domestic and global water issues, such as water scarcity, water contamination, water quality, and water-related natural disasters.

Paloma McGregor presents a short film exploring the relationship between Black bodies, culture and land.

2016 *White House Champion of Change* Kayhan Irani delivers a powerful interactive address.

The evening will conclude with a panel discussion between all featured artists.
