Sloka Iyengar

"Neuronatyam" aims to bring together dance and neuroscience. In this program, Bharatanatyam - the classical Indian dance and theater form - is used to show all that the brain does consciously and unconsciously to enable dance and movement. Themes of balance, preconception, symmetry, aesthetics, rhythm, storytelling, and emotions are explored through the lens of neuroscience. The event is open to all; proceeds from ticket sales will be donated to the National Alliance on Mental Illness (NAMI).

American Museum of Natural History
 440 Lafayette Street #4
 New York, NY, 10003
