The Dancing Designer

Femme Finesse is an empowering dance experience where every woman is invited to find her own vibe. We're all about building confidence, unlocking your inner baddie, and feeling good in your body with zero judgment.

This 90-minute session blends hip-hop, Latin fusion, and sultry movement into an energetic, full-body release designed to lift your mood, awaken your power, and reconnect you with your most confident self.

Expect both a dance class and a fitness experience perfect for beginners and advanced beginners who want to move in a way that feels joyful, approachable, and bold.

What makes Femme Finesse truly special? The vibe in the room: the energy, the laughter, the sense of community.

After slaying it on the dance floor, we keep that energy flowing with a group hang at a nearby restaurant or bar, where new friendships form over drinks, appetizers (included in the class), and shared celebration.

This is more than just a workout. It's a space to move, connect, and feel seen.

May 28th
