The Fighting Monkey Practice is based upon universal principles. It is a practice of research, exploration, struggle and heart and combines elements of dance, martial arts and partner games.

We believe that one's Practice is a reflection of what they believe in and what they hold dear.

"Follow the path of heart and you will find the movement practice that is uniquely yours. Once found, settle in and become one with it."

Thursdays 7:00pm-8:30pm
