HILARY EASTON + CO.
NOTHING IS PERFECT, NOTHING IS FINISHED.

Nothing is perfect, nothing is finished. is a dance work by choreographer Hilary Easton with longtime collaborators/dancers Alexandra Albrecht and Michael Ingle, and many audience-collaborators. The dance examines a state of "overripeness", looking at decay or devolution as essential and exquisite. Nothing is... will be created during a two-week residency at Gibney, with a wide range of audience members invited each day to participate in the work's development.
