Paul B Goode

Alison Cook Beatty Dance "Kids Class" is designed for children with little or high levels of experience with dance. The class is divided into two sections: a warmup and a segment on creative movement or choreography. Each class begins with an easy to follow warm-up, mostly based on modern dance and ballet. Every week there is a new theme to inspire the second part of the class, where kids explore unique phrases to play with and make their own. This class is designed for small and big spaces, and it will keep young dancers moving and creating.
